

## SEICHIM AND THE LEGEND OF THE SISTERHOOD OF THE ROSE

By Dr. Christine Henderson

Seichim is an ancient mystery system of profound knowledge that has been developed and perpetuated by a mythical group of women called the Sisterhood of the Rose. More aspects of the legend of Seichim are being discovered all the time but the key aspect, and the basis of the learning of the Sisterhood, is its link with antiquity, wisdom and knowledge and with the foundations of universal law.

Members of the Sisterhood of the Rose were and still are wisdom keepers. Seichim is linked with the Goddess energy and with the divine feminine in its many forms. Particular forms of the Goddess energy, which are directly connected with Seichim, include the energies of Isis in Egypt and many people are initially drawn to making an Egyptian connection. This is often only the first step as other archetypes emerge to help with the journey. Kwan-Yin and Kwaneen are two forms of the Goddess of Mercy in the East, both of whom are predominantly Goddesses of Mercy. The Black Madonna, in Poland, France, Switzerland and Mexico forms another component of the *Goddess Walk*. <sup>1</sup>White Buffalo Calf Woman in the United States and in Australia the wonderful Rainbow Serpent Mother of the Aboriginal people are all energetically willing and able to create a personal incredible relationship with you. This process has been termed 'The Goddess Walk' Each of these archetypes represents the mother Goddess, or the feminine ray of energy. The wise woman form of the Goddess helps to bring an understanding of the mystery of Death and of Life itself and the way in which life is preserved through death. The Goddess holds the key to eternal wisdom and so the practice of seichim, the art of the Goddess, brings with it a key to truth, trust

and wisdom. The rate at which truth, trust and wisdom are absorbed depends on the rate at which the individual can integrate the experience into daily life in a practical sense. The Sisterhood is also closely linked with the devic, faery and elvin kingdoms. The extent of this linkage is being discovered now and is bringing with it some fascinating revelations. The current configuration of the many worlds, which compose our universe, is such that we are gaining increased levels of access to them at this point.

The format of the Sisterhood may be of interest. There were twelve groups of twelve women who formed the basis of the Sisterhood of the Rose. The Divine Feminine was expressed as a Goddess who led each group of women. The Goddess is the manifestation of the feminine essence, that essence just described that has manifested in different generations and in different ways across all the nations of the world, producing with it variations of the same theme.

<sup>1</sup> These are just some of the sites where the Black Madonna can be found.

The Goddess symbol is the Rose, and the Rose is often the first thing that draws a person into a relationship with the Sisterhood. But the magic and energy of the Goddess vibration and the Sisterhood of the Rose then extends us to a relationship with the Stars, and the Shambala Star in particular. This is the new energy of Seichim, the magical and incredible link with the stars.

Each group of the original twelve women was loosely organised into the four cardinal directions of North, South, East and West. Their work involved holding each colour ray steady, and balancing their work within the four quadrants of the earth under the guidance of the appropriate Goddess and with the assistance of the angelic realms. It is thought that the members of the Sisterhood came from the Sect of Essenes with Mary the Mother as their Master Essene. The wisdom contained in the lost scrolls includes information about the Sisterhood and the feminine face of God lost for centuries. Information and knowledge was also stored in Tibet. Tibet is a land where revelations come in the monasteries and nunneries situated in high places where there are no distractions. It is just you, the Earth and God. Every monastery is unique. One monastery, called the Monastery of the Mystic Rose acted as the record keeper of the Rose Records. This **was** the case.

The Sisterhood **today** is a Supreme Healing force, a gathering of the goddess, in the realm of the new energies. The Sisterhood acts as a major custodian of the sacred wisdom. Its purpose is to heal all of the kingdoms on Planet Earth, an enormous claim, but the way in which this healing takes place is part of the sacred knowledge that is only released to initiates. As epochs in human history have needed certain colour rays or healing tools the Sisterhood has as its role the management and development of the different energy and light vibrations. The Sisterhood has a

direct linkage to the universal symbols. They are the guardians of these universal symbols and they are responsible for releasing these symbols to us at this time.

The members of the Sisterhood work independently and in cooperation with each other. Each individual member of the Sisterhood has a particular talent in terms of creativity, which she uses, to its fullest possible extent. And so, there are writers, artists, healers, mothers, grandmothers, sisters and friends. All the elements of these roles have a significant place and a major contribution to make within the Sisterhood. And externally all contribute to the creation of a critical mass, which is charged with changing the negative into the positive at a local, national, international and universal level. The Sisterhood is a Holy Alliance,<sup>2</sup> and more information becomes available on this emerging energy during the study of Seichim. Because not only is Seichim a Holy Alliance itself, it is part of a larger Holy Alliance, one which is important for the furtherance of the positive energy of Mother Earth. The excitement of the new vibrations coming into all our lives is reflected in the increase of activity amongst the membership of the Sisterhood at this particular time. Women and men are increasingly being drawn to the simple and straightforward energy of seichim, because its principles are universal.

Women and men alike are being drawn to understand the nature of the sacred contract that they have with the universe, and how they can work in co-operation with the Angelic realms. The Angelic realms manage the energy grids of the earth and keep the polarities in balance, in order to secure the health and well being of Planet Earth. The Sisterhood has a direct linkage to these realms and to the universal symbols themselves. Members of the Sisterhood have always acted as the guardians of these universal symbols. They are responsible for releasing these symbols to us now. **And so, if you feel a connection with the Sisterhood it is important that you honour it. Now is the right moment for you to make your universal declaration in order to fulfil your full potential. Seichim is one path that can be chosen to enable an individual to do just this in a gentle, progressive and wondrous way.**

### THE PRAYER OF THE SISTERHOOD

Sisters this is your long awaited wake-up call  
It is time now to emerge from the long winter of universal seclusion  
The Great Central Sun has risen so now we can teach in our own style

---

<sup>2</sup> The Holy Alliance is not simply one between the members of the Sisterhood, however. It is much more complex than this, although the Sisterhood is definitely involved.

That this life is no more than an elaborate illusion.

The centuries in retreat and hiding are over now  
 There will be no more wondering if it is right  
 For us to emerge making our myths and legends public  
 We have journeyed together, sisters, through the dark shadow of the night.

We have reached the end of the major stage of the journey  
 We have worked, toiled, laughed and sighed  
 We have walked together and independently along the way  
 And as some of our friends were lost to the cause we cried and cried.

Now the depth of darkness is transformed into our mutual friend  
 It is bringing love and bright white light  
 It is pushing urgently through our bodies into every hidden crevice  
 Opening us to the knowledge and understanding of our might.

We welcome with arms open wide the Brotherhood  
 We acknowledge joyfully our Holy Alliance  
 The male community with whom we have been associated on this road  
 Who sometimes has brought out our feelings of defiance.

But now a time for extraordinary celebration is here  
 In the Garden of Eden, where Atlantis has risen  
 Flowers adorn every available open space  
 And now in every living thing there is no schism.

Suddenly three Phoenix fly across the sky as we watch  
 The five Russian dolls stand here too in their appointed place  
 The new archetypes are positive, extraordinary, illuminated and strong  
 They are reflected in the starry brilliance of each watching face.

We thank the Goddess, the Angelic Beings, the devas and the sprites  
 Who have helped us on our quest  
 They have carried us through the depth of the mire  
 Even when we cried out - 'Please let us rest.'

They have whispered words of wisdom, support and guidance  
 Whenever we have faltered or seemed frail  
 They have never been critical or abrupt  
 Even when we asked 'May we leave this trail?'

Our collective call to move forward is accompanied by music  
 Music from our soul, our essence and our own heart  
 It is time for acceptance by this world and all the others  
 Emerge from hiding now my sisters. Let us make this brand new start!
